ORGANIC MARKET

## Megan's Story

Megan's Organic Market (MOM) offers a truly unique "open concept" shopping experience! Customers can easily see and handle the product and browse at their own pace, while the staff of friendly, highly-trained "buddtenders" are on-hand to help however needed. With a large selection of products - from the rare and hard-to-find, to the tried and true favorites - Megan's is reimagining the cannabis retail industry!

Originally founded in 2013 in response to the lack of verifiable, organic medicine available to medical cannabis patients, MOM's delivery service worked hard to improve the health of patients, customers and residents, and quickly became one of the most respected Prop. 215 cannabis collectives in California.

Today, MOM Inc. is a 100% women owned company and has grown to include California retail storefronts, including the first adult and medical use cannabis retail storefront in the City of San Luis Obispo, cannabis cultivation operations, and a cannabis product brands division.

**Through all that we do,  
MOM is committed to making  
cannabis wholesome.**

## Our Mission

Megan's Organic Market is on a mission to redefine society's relationship with cannabis through responsible stewardship, while seeking to improve the health of others and our community through education, awareness, and access to sustainable, high-quality cannabis products.

MOM has an exemplary track record of responsible community stewardship. Creating a culture of care has been core to the MOM company since its founding. We prioritize our customers and our community both inside and outside the shop through paying our employees above minimum wage, locally purchasing supplies, ongoing employee anti-bias training, providing customers with a welcoming shopping experience, hiring diverse employees, prioritizing environmental sustainability and a dedication to community service.

## Our Values

### Community

Making the world a better place starts with the community we live in. MOM is dedicated to doing good.

### Stewardship

MOM is committed to a high level of corporate responsibility, setting a high standard for this new and emerging industry.

### Education

Businesses and the community alike benefit from a more informed world. MOM strives to spread knowledge and understanding.

### Wholesomeness

Changing society's negative perceptions of cannabis use, cannabis users, and cannabis industry workers by embodying wholesomeness begins with us. Our employees, products, store design, client experience, brand aesthetic, and every other facet of our business reflects our commitment to breaking stereotypes, cultivating trust, and leading by example.

### Holistic Growth

We strive for the total thriving of our organization, and the members within it. We promote from within, we invest in our employees, and we encourage a work-life balance.

## Giving Back

Each month MOM serves our community through volunteerism and financial giving, including:

- Adopting a two-mile stretch of Highway 1
- Sponsoring community workshops and blood drives
- Preparing and staffing monthly dinners for the Homeless services center
- Planting and maintaining a community orchard
- Participating in creek clean ups
- Serving at the local food bank
- Donating to organizations addressing homelessness, LGBTQ+ rights, restorative justice, women in business, food insecurity, leadership development and so much more!
